**SCHEDULE**

---

- |                |   |
|----------------|---|
| October, 1988  | A. backfilling of former sludge location A; and<br>B. hydroseeding of former sludge locations A, B, C and D.  |
| November, 1988 | A. significant on-site activities did not occur.  |
| December, 1988 | A. post restoration topographic surveying of former sludge locations A, B, C and D; and<br>B. additional post-excavation sampling within location B at and near sample point B-1 (sampling required by the Record of Decision). |
| January, 1989  | A. significant on-site activities did not occur   |
| February, 1989 | A. completion of activities associated with the Paint Sludge Removal Program.   |

**Note:** The "Report of Field Activities for the Paint Sludge Removal Program", dated September 1988, indicated that hydroseeding and post restoration topographic surveying occurred during September 1988. Those activities actually occurred during October and December 1988, respectively, as indicated in this attachment.
